

S SOLIDWORKS

SOLIDWORKS THE CAD LEADER

SOLIDWORKS AT A GLANCE

SOLIDWORKS[®], part of Dassault Systemes, is a world leader in 3D solutions that help millions of engineers and designers succeed through innovation. Our products deliver an intuitive experience in product design, simulation, publishing, data management, and environmental impact assessment.

SOLIDWORKS has established itself as a leader in the CAD market with a focus on ease of use, affordability, and community. This legacy continues as SOLIDWORKS dedicates itself to serving its community and helping customers develop market-leading products.

KEY TO LEADERSHIP: THE SOLIDWORKS COMMUNITY AT A GLANCE

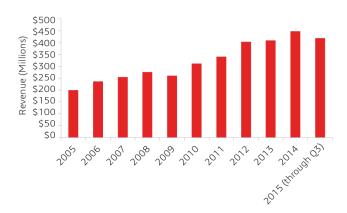

The SOLIDWORKS Community sets SOLIDWORKS apart from other CAD vendors:

- 2,954,532 total customers (cumulative through Q3 2015, expected to exceed 3 million Q1 2016) in 80 countries
- 210,800 total companies
- 322 Value-Added Resellers
- 810 Solution Partners
- 247 User Groups
- 2.8 million estimated educational seats in 29,000 schools
- Growing community of 165,000 certified SOLIDWORKS users
- Over 2 million students graduate every year with SOLIDWORKS training

PROVEN STRENGTH AND GROWTH

The enthusiasm of the growing SOLIDWORKS Community is supported by over a decade of strong economic growth.

In 2014, SOLIDWORKS represented 19 percent of total revenue for Dassault Systèmes, reinforcing how important the brand is to the innovation portfolio.

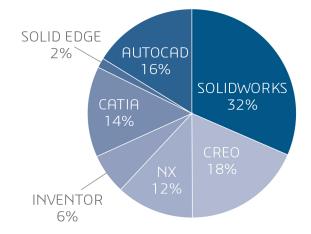

DEMAND FOR SOLIDWORKS

SOLIDWORKS market leadership can be measured by the number of job postings seeking SOLIDWORKS users.

Queries on Monster.com, a leading employment website, for the top 100 U.S. metropolitan areas reveal that of the 89,120 job openings seeking CAD skills, 32 percent request SOLIDWORKS users (August 2015). This reveals how many more U.S. companies are using SOLIDWORKS.

What this large network of SOLIDWORKS users means:

- More suppliers and potential partners
- Larger pool of trained users to hire from
- Less time invested in training

ENTHUSIASTIC USER BASE

Nothing says more about a company's leadership than the devotion of its user base. The SOLIDWORKS user community is so committed, 5000 attend the annual SOLIDWORKS World user conference, making it one of the best-attended CAD user conferences in the industry. Further proof of user advocacy:

- 935K likes on Facebook
- 177K followers on Twitter
- 58K subscribers on the SOLIDWORKS YouTube channel

CONNECTED COMMUNITY

SOLIDWORKS is committed to the success of its users. As part of the community, users enjoy benefits from several resources provided at no additional cost.

"It is clear that SOLIDWORKS is focused on empowering customers to innovate and design, without software getting in the way."

-Michelle Boucher, Tech-Clarity

My.SolidWorks.com provides relevant online content 24x7

- A single place to get answers and connect with the expansive community
- Integrated content from various sources including an online knowledge database and tips and tricks
- Over 700, 5- to 12-minute online training videos
- Over 35,000 hours of online training have been completed
- Over 47,000 new users have registered in 2015

3D ContentCentral[®] offers user-contributed and supplier-certified downloadable SOLIDWORKS 3D and 2D models

- 1.3 million users
- 250 suppliers
- 890 catalogs
- 3500 downloads per month
- 330,000 models with 20 to 30 million configurations
- 716,000 unique visitors as of October 2015

PREPARING FOR THE FUTURE WITH SOLIDWORKS

SOLIDWORKS continues to focus on ease of use, the main criterion top-performing companies look for in a CAD solution,* while continuing to invest 80 percent of SOLIDWORKS revenue back into its development. Each release has 200 new

enhancements with over 90 percent directly resulting from customer feedback.

SOLIDWORKS customers enjoy a competitive advantage with tools for better decisions that lead to more competitive products:

- Assess product cost and sustainability impact
- Leverage a full suite of extended applications including data management, electrical design, simulation, and technical communications
- Optimize the front end of innovation with concept and industrial design tools that take advantage of the latest technologies and infrastructures to maximize flexible modeling and collaboration
- Streamline engineering efforts and extend 3D models outside of engineering with unique MBD (model-based design) technology to easily adopt 3D drawings

CONCLUSION

Joining the SOLIDWORKS Community means access to these benefits:

- The largest pool of trained engineering talent
- The largest network of suppliers and talent
- Technology that will meet design needs now and for the future

*Tech-Clarity, Are You Changing CAD Tools?

Our **3D**EXPERIENCE® platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3DEXPERIENCE®** Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 190,000 customers of all sizes in all industries in more than 140 countries. For more information, visit **www.3ds.com**.
